

## **We noticed you have a fruit tree!**

The Fruit Tree Program is dedicated to harvesting and sharing neighbourhood fruit.

- Volunteers harvest fruit and nuts from backyard trees which are shared between the picker, the home owner and the community.
- In the past 10 years we have picked more than 35,000 pounds of fruit and redistributed it to community groups for people in need.
- Would you like to participate? The service is free. Donations are gratefully accepted.
